About Us

brmi – academy for healthcare professions is a non-profit organization that stands for optimal preparation to receive the licence to practise medicine, dentistry or pharmacy in Germany. We offer certified qualification measures for international healthcare professionals.

What we offer

- Certified qualification measures
- Courses to prepare for language tests and for the medical or dental exam
- Crash courses for intensive preparation
- Officially approved German language tests C1 for medical and dental specialists or pharmacists (Fachsprachenprüfung C1)

Cooperation partners

- Public health and examination offices
- Medical and dental offices, hospitals and pharmacies
- Schools for healthcare professionals
- Medical, dental and pharmaceutical associations

General Conditions

Customers

- Healthcare professionals with a degree from EU countries
- Healthcare professionals with a degree from a so called third country
- Healthcare professionals who are refugees with prospect of staying
- Healthcare professionals from abroad who already work with a temporary restricted licence

Requirements

- Final degree in medicine, dentistry or pharmacy from a university in a foreign country (EU or third country) and
- German language skills at least Level B1/B2

Application process

- Application with CV, copies of language certificates, copies of diploma and relevant documents
- Registry at the medical, dental or pharmaceutical association (home country) and (if available) employment references in German translation
- Interview (including verification of all relevant documents, analysis of language level and clarification of financing)

Possibilities for funding

100% funding possible through education vouchers by public employment agencies (if the requirements are complied), regardless of residence or federated state

Proven Quality

Certification

Our qualification measures are certified by the expert authority DQS in the context of the ordinance on employment promotion.

Characteristic features

- Accompanying learning training and individual coaching by certified social pedagogues and psychotherapists
- Mentoring program: individual and personal contact with locals to help our participants to apply their language skills and settle down in their second home
- Regular social counselling
- Expert consultation and support with the application for the validation process
- Support in finding suitable and nearby positions for practical training
- Job application training and support with job search after completing our qualification measures
